## **Section 1**

### **DASIS State Annual Agreement (Annual Report) Questionnaire Analysis**

There were 16 questions in the DASIS State Agreement (Annual Report) with several sub questions. The reports were disseminated to the each state on September 16, 2002 and the last report was received on December 5, 2002. The purpose of the Annual Report questionnaire is to expand our knowledge and understanding of State data systems with the goal of improving the DASIS system. On the day this report was written, 47 (94%) out of 53 questionnaires sent to states were on hand.

For those States that did not respond to one or more questions, a second questionnaire was emailed to them in an attempt to collect their response. If the State did not respond after the second attempt, the question was left unanswered.

**Question 1:** Does your State have a standard definition for the term “substance abuse treatment” or some equivalent term?

- Out of the 47 respondents, 36 or 76.60 % answered that they currently have a standard definition for substance abuse. However, 10, or 21.28 % did not have a standard definition and 1 or 2.13% (Nebraska) did not respond to the question.

**Question 2:** Does your State license halfway houses?

- All 47 States responded to this question. Twenty-nine or 61.70% answered that they do license halfway houses, while 18 or 38.30% responded that they did not.

**Question 2a:** If yes, do halfway houses receive the same kind of license as substance abuse treatment providers?

- Twenty-six or 55.32% of the respondents responded affirmatively to the question, while 2 or 4.26% responded negatively. Eighteen (38.30%) did not respond to the question since they do not license halfway houses as stated in question 2. One State responded that halfway houses receive both facility licenses and certifications from HFS75.

**Question 3:** Do you include any halfway houses on the I-SATS?

- Twenty-nine (61.70%) of the States responded that they did include halfway houses that are licensed as treatment centers on the I-SATS, and 17 (36.17%) responded that they did not include halfway houses on the I-SATS. There was only one State (New Hampshire) that indicated that they include “not licensed” halfway houses on the I-SATS.

**Question 4:** Do any treatment facilities in your State operate “satellite” treatment facilities?

- All 47 States responded to this question with 44 (93.62%) responding affirmatively, while 3 (6.38%) responded negatively.

**Question 4A:** Are satellite facilities in your State listed as separate facilities on the I-SATS?

- Of the 41 States that responded to this question, 31 (65.96%) reported that satellite facilities are reported on the I-SATS and 10 (21.28%) reported that satellite facilities are not reported on the I-SATS.

**Question 5:** Over the past year or so, the I-SATS on-line has been revised based on suggestions from the States. Do you have suggestions for improving the I-SATS on-line?

- In reviewing several of the suggestions listed below, it appears that some of the respondents are unaware of the various services and activities that are available to them through the IQRS and I-SATS on-line system. Within the next two weeks, we will contact and provide training via the telephone to those States that we feel may require additional training on how to more effectively use the IQRS and I-SATS on-line system.
- The majority of States (36 or 76.60%) did not have any suggestions on how to improve the I-SATS On-line. There were 11 (23.40%) States that did in fact have suggestion on how to improve the I-SATS On-line. Three of the 11 (28%) suggestions involve designing the on-line I-SATS with the ability to look up facilities by name in addition to the I-SATS ID #. Specific comments are as follows:

1. In I-SATS Quick retrieval, have a link for I-SATS ID# so that we could select it and it would take us to the record, rather than having to return to I-SATS on-line and selecting the facility to update.

Synectics response: We are in the process of writing a program to link the IQRS to the I-SATS On-Line by the I-SATS ID.

2. **Have a program name look up on the entry/edit screen.** As it is currently, a person needs to know the number of the program in order to look it up and see if a program is already listed. Causes duplication.

Synectics response: Since a State can look up a program name in the IQRS, once we link the IQRS to the I-SATS On-Line by the I-SATS ID, this task will be easier.

3. Is not kept updated. Pending status causes too much lag time.

Synectics response: The normal pending status for review of State submitted new and updated facilities is 2-3 working days. During the production of the National Directory and the creation of the N-SSATS frozen file of facilities for the survey, the pending status may extend to 4-5 working days.

4. The ability to issue state approval via the website for new facility/add request would be helpful.

Synectics response: This ability to perform this function currently exists. Once the I-SATS Project Office notifies the State of a new facility, the State can view the facility's information on the I-SATS On-Line and change the facility's status to State Approved.

5. Include on-line how facility was added/updated, person's initials or N-SSATS.

Synectics response: We will take this request under advisement and make a decision within 90 days.

6. It would be helpful to be able to Access the facility by name or address in addition to the State ID number and the I-SATS number.

Synectics response: see comments #2 above.

7. Provide easy to understand instructions on how to obtain lists off of I-SATS using different key fields.

Synectics response: These instructions currently exist in the download information file located in IQRS on-line.

8. How do we avoid double entries? We get the info and add it to I-SATS (and assign a state ID) and sometimes you get the info and enter it. The agency ends up with two I-SATS numbers. Is there a way to avoid this?

Synectics response: Duplication entries can be avoided by searching for the facility's information in the IQRS prior to adding the facility to the I-SATS On-Line. The implementation of #2 above may facilitate this search.

9. Is it possible to shorten the time delay from the user making an edit on the website until the change is actually made in the database? (MA)

Synectics response: see #3 above.

10. Seems to run better in MS Explorer, but Netscape is used here in DHS. When you need to update a facility you must know the I-SATS number. This is not always available to us. It would be nice if we could do a search based on facility name.

Synectics response: Please see #2 above.

11. All additions & modifications should be coordinated with the state to reduce the errors and duplicates.

Synectics response: see #8 above. In addition, States are notified of their State's facility additions and closures originating from another source. Also, State are notified when requests for closures are not fulfilled because the facility informed the I-SATS Project Office that it was still in operation and providing treatment services.

**Question 6:** This question asks States how they determine approval of facilities to be listed in the National Directory and on-line Treatment Facility Locator.

- The majority of the States (37 or 55.22%) reported that when making determinations, their States "a) approve facilities licensed by the State Substance Abuse Agency." Ten States (14.93%) reported that when making determinations, their State "b) approve facilities licensed by any State agency." Six States (8.9%) reported that they "c) approve some facilities not licensed by the State," while 6 States reported that they "d) determine approval status based on other criteria."
- It is important to note that 10 States, IA, LA, PR, NJ, FL, TX, IL, MA, HI and MS selected multiple answers for this question. States had the choice to select one or several answers. Those States that selected multiple answers are listed below:

- i. IA, PR, FL, TX and MA reported that they approve facilities to be listed in the National Directory that are licensed by the State Substance Abuse Agency as well as facilities licensed by any State agency (a & b).
- ii. NJ and IL reported that they approve facilities licensed by the State Substance Abuse Agency and also determine approval status based on other criteria (a & d).
- iii. LA reported that they approve facilities licensed by the State substance abuse Agency, facilities licensed by any State agency, and also approve some facilities not licensed by the State (a, b & c).
- iv. HI reported that they approve facilities licensed by the State Substance Abuse Agency, approve facilities licensed by any State agency, and also determine approval status based on other criteria (a, b & d).
- v. MS also reported that they approve facilities licensed by the State Substance Abuse Agency, approve some facilities not licensed by the State, and determine approval based on other criteria. (a, c & d)

**Question 7:** In general, does your office have the staff needed to check the accuracy of these State tables or “outliers?”

There were 23 (46.94%) States that responded that they usually have the staff or resources to check the accuracy of State tables or outliers, while 12 (24.49%) indicated that they sometimes have the staff and resources to check for accuracy of State tables and outliers. 11 (22.44%) responded that they rarely or never have the staff or resources available to check the accuracy of State tables or outliers. (See attached excel file)

**Question 8:** Does your office have the data needed to check the accuracy of these facility-level client counts, either on the State tables or the “outliers?”

There were 22 (46.81%) of the States who responded that they can check the accuracy of both State tables and outliers, and 9 (19.15%) who indicated that they could only check the accuracy of the State summary tables, and only 2 (4.26%) indicated that they could only check the accuracy of the outliers. Fourteen States responded that they couldn’t check the accuracy of either the State tables or the outliers. (See attached excel file)

**Question 9 & 10:** In June 2001, do you recall one of the DASIS contacts in your office receiving the 2000 N-SSATS State Summary Tables and the 2000 N-SSATS outliers? Did someone in your office review these documents?

Almost three quarters (74.47%) or 35 States responded that they recalled receiving the 2000 N-SSATS State Summary Tables, however, only 23 States (48.94%) reported that they did receive the 2000 N-SSATS outliers. All of the States except for 1 (VT) that reported that they received the 2000 N-SSATS State Summary Tables also reported that their office reviewed those tables. All of the States that reported that they received the 2000 N-SSATS outliers also reported that they reviewed that document.

**Question 11:** Thinking about the N-SSATS questionnaire for a minute, are there any questions we could add that you would find useful for your own State needs?

- Over 75% of the States responded that they did not have the need for additional questions or information. Those questions (7) that States did request be added to the questionnaire are as follows:
  1. I miss the questions relating to FTE's. It was the only place it was available.
  2. It would be useful to track the use of buprenorphine in treatment of opiate dependency.
  3. We would like to explore the possibility of including a New York State page with one or more questions targeted for our licensed treatment programs.
  4. Would like the waiting list question reinstated.
  5. Section A: Facility Characteristics: Number 24. A. State substance abuse agency, please include state license number. If license number is unknown, please contact your state licensing agency to obtain the number. Under Section C: General Information: Is...
  6. Are you meeting the substance abuse treatment needs of your community? If not, what kinds of resources do you need to do so?
  7. Number and certification/licensure of direct care staff and salaries.

**Question 12:** Are “early intervention” services offered in your State to publicly funded clients?

- There were 28 (59.57%) States that responded that early intervention services are offered in their States. Of those 28 States, 12 (25.53%) States reported that their clients are formally admitted to the early intervention services and only 6 (12.77%) States are reporting these admissions as “outpatient” to TEDS.

**Question 13:** Please indicate the crosswalk’s status.

- Less than half (19) of the States indicated that the crosswalk status is accurate. Over 59% of the States reported that their crosswalk requires changes. (See attached excel file)

**Question 14:** For electronic data collection, please provide a data dictionary, file layout, or other documentation of the data items collected.

- Approximately 80% of the States provided data forms and instructions. Approximately 16% or 8 of the States did not respond to this question, whereas 1 State (VA) responded that “data forms are not available because they have “no standardized form,” and 1 State (NE) responded that “data form instructions are not available because “they never seen the instructions.”

**Question 15:** Does your state prepare reports or other analyses of your State substance abuse admissions data?

- Over 85% of States responding indicates that they prepare reports or other analyses of their State's substance abuse admissions data.

Please see Section 3 for additional analysis.

## Section 2

### All Questions - Cumulative Count and Percent

#### DASIS State Annual Agreement (Annual Report)

	Count	Percent	Cumulative Count	Cumulative Percent
1. Does your State have a standard definition for the term "substance abuse treatment" or some equivalent term?				
(Not Answered)	1	2.13 %	1	2.13 %
Yes, have a standard definition	36	76.60 %	37	78.72 %
No, have no definition	10	21.28 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>
2. Does your State license halfway houses?				
Yes	29	61.70 %	29	61.70 %
No	18	38.30 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>
2a. If yes, do halfway houses receive the same kind of license as substance abuse treatment providers?				
(Not Answered)	18	38.30 %	18	38.30 %
Yes	26	55.32 %	44	93.62 %
No	2	4.26 %	46	97.87 %
Other	1	2.13 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>
3. Do you include any halfway houses on the I-SATS?				
Yes, those that are licensed as treatment providers.	29	61.70 %	29	61.70 %
Yes, those that are not licensed as treatment providers.	1	2.13 %	30	63.83 %
No, halfway houses are not included on the I-SATS.	17	36.17 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>
4. Do any treatment facilities in your State operate "satellite" treatment facilities?				
Yes	44	93.62 %	44	93.62 %
No	3	6.38 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>
4a. Are satellite facilities in your State listed as separate facilities on the I-SATS?				
(Not Answered)	6	12.77 %	6	12.77 %
Yes	31	65.96 %	37	78.72 %
No	10	21.28 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

5. Over the past year or so, the I-SATS on-line has been revised based on suggestions from the States. Do you have suggestions for improving the I-SATS on-line?

Yes, we have the following suggestions for Improvement:	11	23.40 %	11	23.40 %
No, we do not have any suggestions at this time.	36	76.60 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

6. Periodically, your State is asked by the I-SATS Project Office to review newly identified facilities to determine if they are "State approved" to be listed in the National Directory and on-line Treatment Facility Locator. When making that...

Approve facilities licensed by the State Substance Abuse Agency	37	55.22 %	37	55.22 %
Approve facilities licensed by any State agency	10	14.93 %	47	70.15 %
Approve some facilities not licensed by the State	6	8.96 %	53	79.10 %
Determine approval status based on other criteria (please explain)	6	8.96 %	59	88.06 %
Other	8	11.94 %	67	100.00 %
<b>Total Responses</b>	<b>67</b>	<b>100 %</b>	<b>67</b>	<b>100 %</b>

7. In general, does your office have the staff needed to check the accuracy of these State tables or outliers?"

(Not Answered)	1	2.04 %	1	2.04 %
Usually have the staff or resources	23	46.94 %	24	48.98 %
Sometimes have the staff or resources	12	24.49 %	36	73.47 %
Rarely have the staff or resources	6	12.24 %	42	85.71 %
Never have the staff or resources	5	10.20 %	47	95.92 %
Comments	2	4.08 %	49	100.00 %
<b>Total Responses</b>	<b>49</b>	<b>100 %</b>	<b>49</b>	<b>100 %</b>

8. Does your office have the data needed to check the accuracy of these facility-level client counts, either on the State tables or the "outliers?"

Yes, can check the accuracy of both	22	46.81 %	22	46.81 %
Yes, but can only check the accuracy of the State summary tables	9	19.15 %	31	65.96 %
Yes, but can only check the accuracy of the outliers	2	4.26 %	33	70.21 %
No, cannot check the accuracy of either	14	29.79 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

9a. The 2000 N-SSATS State Summary Tables

(Not Answered)	2	4.26 %	2	4.26 %
Yes	35	74.47 %	37	78.72 %
No	2	4.26 %	39	82.98 %
Don't Know	8	17.02 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

9b. The 2000 N-SSATS Outliers

(Not Answered)	4	8.51 %	4	8.51 %
Yes	23	48.94 %	27	57.45 %
No	6	12.77 %	33	70.21 %
Don't Know	14	29.79 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

10a. The 2000 N-SSATS State Summary Tables

(Not Answered)	2	4.26 %	2	4.26 %
Yes	34	72.34 %	36	76.60 %
No	2	4.26 %	38	80.85 %
Don't Know	9	19.15 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

10b. The 2000 N-SSATS Outliers

(Not Answered)	4	8.51 %	4	8.51 %
Yes	23	48.94 %	27	57.45 %
No	5	10.64 %	32	68.09 %
Don't Know	15	31.91 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

11. Thinking about the N-SSATS questionnaire for a minute, are there any questions we could add that you would find useful for your own State needs?

No, don't have the need for additional questions or information	40	75.47 %	40	75.47 %
Yes, there is a question or two which might be helpful	6	11.32 %	46	86.79 %
Enter question	7	13.21 %	53	100.00 %
<b>Total Responses</b>	<b>53</b>	<b>100 %</b>	<b>53</b>	<b>100 %</b>

12. Are "early intervention" services offered in your State to publicly funded clients?

No	19	40.43 %	19	40.43 %
Yes	28	59.57 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

12a. If yes, are clients formally admitted to this service?

(Not Answered)	19	40.43 %	19	40.43 %
No	16	34.04 %	35	74.47 %
Yes	12	25.53 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

12b. If yes, are these admissions reported to TEDS?

(Not Answered)	33	70.21 %	33	70.21 %
No	8	17.02 %	41	87.23 %
Yes	6	12.77 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

12c. If yes, are they reported as:

(Not Answered)	41	87.23 %	41	87.23 %
Outpatient	6	12.77 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

13. Please indicate the crosswalk's status by checking one of the boxes below.

(Not Answered)	1	2.13 %	1	2.13 %
Crosswalk is accurate and current as provided	19	40.43 %	20	42.55 %
Crosswalk requires changes which we have described in an attachment to this questionnaire	12	25.53 %	32	68.09 %
We are currently working with Synectics to update our crosswalk	11	23.40 %	43	91.49 %
We have questions or need assistance in crosswalk review, please contact:	4	8.51 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>

14. For electronic data collection, please provide a data dictionary, file layout, or other documentation of the data items collected. If this information is available on the Internet, please provide the URL.

(Not Answered)	8	16.33 %	8	16.33 %
Data forms and instructions are enclosed	28	57.14 %	36	73.47 %
Data forms and instructions are being sent under separate cover	2	4.08 %	38	77.55 %
Data forms and instructions are available on the Internet at <a href="http://">http://</a>	1	2.04 %	39	79.59 %
Data forms and instructions are being sent by email to: <a href="mailto:jimd@smdi.com">jimd@smdi.com</a>	8	16.33 %	47	95.92 %
Data forms are not available because...	1	2.04 %	48	97.96 %
Data form instructions are not available because...	1	2.04 %	49	100.00 %
<b>Total Responses</b>	<b>49</b>	<b>100 %</b>	<b>49</b>	<b>100 %</b>

15. Does your state prepare reports or other analyses of your State substance abuse admissions data?

(Not Answered)	1	2.13 %	1	2.13 %
Yes	40	85.11 %	41	87.23 %
No	6	12.77 %	47	100.00 %
<b>Total Responses</b>	<b>47</b>	<b>100 %</b>	<b>47</b>	<b>100 %</b>
